Subject: Recommendation letter for Mr. Sanjay Meena

Dear Sir/Madam,

It is my pleasure to write this letter of recommendation for Mr. Sanjay Meena who has applied for an internship at your place. I know Sanjay fairly well since about one year when he was a student in my course (one UG control course: EE302 in the previous semester, and one post-graduate course: EE640 in the current semester). Before these two courses too, I did know him as a student here in the Electrical Engineering Department, but not adequately well.

I have a positive impression about Sanjay. As a student, he is pretty focussed and sincere. His regularity in attendance and general participation in the class has yielded positive results to his academics, I am sure. Further, given his dedicated participation in academics, I am sure that if he participates in any internship, he will be a genuine contributor: both individually and as a team-member.

In summary, I am happy to recommend him strongly for the internship. I am available for any clarifications/queries in this context: either by email or by phone.

With best regards,
